Çiftçiler Birlik Kağıtçılık A.Ş.: A Pioneer in Reliable and High-Quality Hygiene Products Founded in 1999, Çiftçiler Birlik Kağıtçılık A.Ş. continues its operations as one of Turkey's leading companies in the hygiene and personal care industry. The facility, located on a vast area of 100,000 m<sup>2</sup>, includes 25,000 m<sup>2</sup> of indoor production space. Equipped with modern technology and sustainable production methods, the facility stands out with its wide range of products and high-quality standards. The company's main product categories include patient care products, baby care products, hygienic paper products, wet wipes, moist toilet paper, and personal care products. With a product portfolio designed to meet consumers' daily hygiene and care needs, Çiftçiler Birlik produces over 400 different products, catering to a wide range of customers. Çiftçiler Birlik Kağıtçılık distinguishes itself not only through its extensive product range but also through its meticulous attention to production processes and commitment to high-quality standards. The company has successfully obtained ISO and GMP (Good Manufacturing Practices) certifications, ensuring that its production processes comply with international standards. As a result, the company has gained a reputation for reliability and quality in both domestic and international markets. Behind the company's success is a team of 250 experienced and skilled employees. Each staff member is equipped with the knowledge and expertise required by the industry, working with a customer satisfaction-oriented approach. Constantly updating its technological infrastructure and focusing on innovative solutions, the company remains committed to maintaining its leadership position in the industry. Çiftçiler Birlik Kağıtçılık A.Ş. also places great importance on sustainability principles. The company adopts environmentally friendly production techniques and uses recyclable materials, embracing a production philosophy that respects nature. By doing so, the company not only takes environmental and social responsibility seriously but also delivers the hygiene products of the future today.

## GOLD SERIES SCENTED TOILET PAPER

Mavibeyaz Gold Series Eau De Toilette Series give spring freshness to your bathroom thanks to its unique odor of orchid and white flowers at the head note, clove at the heart note, and vanilla and wood at the base note, developed by perfumers.

With its 3-dimensional and 3-layer structure, it provides a use that is both durable and soft.

# Practical Paper Towels

## HYGENIC PAPER TOWEL

Hygienic Paper Towel offers hygienic use in its special box, isolated from the external environment. Moreover, you can take only one sheet at a time so that the other sheets of the towel remain unrouched. It takes up less space than normal towels, especially in homes, stores, shelves and warehouses. It is indispensable for those who like it both hygienic and practical.

## PULL UP ADULT PANTS

Wraps the body 360° with its anatomical structure and offers a underwear like comfort. Even if the inner surface gets wet it traps the wetness and skin remains dry.

Textile surface permeates the air, and prevents the rise of the temperature and perspiration. Flexible barriers prevent leakage. The white layer - Acquisition Distribution Layer that quickly distributes the liquid to lower layers accelerates the distribution of the liquid to lower layers in order to prevent the contact of the liquid with the skin. The absorbent particles provide high absorption power in the inner layer, which quickly absorbs the liquid, jellify and absorb the liquid to prevent its rise to the surface again. While it ensures that the skin remains dry, it also helps to prevent the skin irritation. Its 360-degree tight-fitting anatomic design offers underwear comfort. It enables its users to easily take part in social life. It prevents the irritation of the user's legs thanks to its tight-fitting special anatomic design and pleats between legs.

While it provides a safe use with its liquid tight leg barriers that prevent leakage and its cloth structure, it provides also comfort with its skin-friendly dermatological structure. Its 3-layer (exterior, absorbent and inner) textile surface helps the skin to breathe.

EKSTRA<sup>+</sup> |

PEDEXTRA BREATHABLE ADULT DIAPER

PedEkstra anatomic incontinence diapers are designed to increase the living standards of their users and patient relatives and to provide comfort and safe protection with their high usage comfort and high skin protection.

Its white exterior surface with Mavibeyaz logo has a cloth-similar structure. Thanks to this structure, it helps the skin to breathe. It helps to prevent the heat increase and sweat of the skin and accordingly, the skin irritation. It is an important assistant in protecting the skin health for the care of patients who use patient diapers particularly at nights and/or for long time. The blue layer (ADL- Acquisition Distribution Layer) that quickly distributes the liquid to lower layers accelerates the distribution of the liquid to lower layers in order to prevent the contact of the liquid with the skin.

The absorbent particles (SAP-Super Absorbent Polymer) that provide high absorption power in the inner layer, which quickly absorbs the liquid, jellify and absorb the liquid to prevent its rise to the surface again. While it ensures that the skin remains dry, it also helps to prevent the skin irritation.

Thanks to its side bands that can be opened and closed again and again, it can be repeatedly opened and closed where necessary.

It prevents the irritation of the user's legs thanks to its tight-fitting special anatomic design and pleats between legs.

While it provides a safe use with its liquid tight leg barriers that prevent leakage and its cloth structure, it provides also comfort with its skin-friendly dermatological structure.

Thanks to its wetness indicator on its exterior surface, it helps you to understand when to change the diaper.

## PEDEXTRA BREATHABLE ADULT DIAPER CLASSIC | ●●●●●●●●

PedEkstra anatomic incontinence diapers are designed to increase the living standards of their users and patient relatives and to provide comfort and safe protection with their high usage comfort and high skin protection.

Its white exterior surface with Mavibeyaz logo has a cloth-similar structure. Thanks to this structure, it helps the skin to breathe. It helps to prevent the heat increase and sweat of the skin and accordingly, the skin irritation. It is an important assistant in protecting the skin health for the care of patients who use patient diapers particularly at nights and/or for long time. The blue layer (ADL- Acquisition Distribution Layer) that quickly distributes the liquid to lower layers accelerates the distribution of the liquid to lower layers in order to prevent the contact of the liquid with the skin. The absorbent particles (SAP-Super Absorbent Polymer) that provide high absorption power in the inner layer, which quickly absorbs the liquid, jellify and absorb the liquid to prevent its rise to the surface again. While it ensures that the skin remains dry, it also helps to prevent the skin irritation. Thanks to its side bands that can be opened and closed again and again, it can be repeatedly opened and closed where necessary. It prevents the irritation of the user's legs thanks to its tight-fitting special anatomic design and pleats between legs. While it provides a safe use with its liquid tight leg barriers that prevent leakage and its cloth structure, it provides also comfort with its skin-friendly dermatological structure. Thanks to its wetness indicator on its exterior surface, it helps you to understand when to change the diaper.
